The four clusters of teaching skills and traits detailed below are aligned with the Teaching Performance Expectations of the California Commission on Teacher Credentialing (2001), as well as with the rubrics of the Performance Assessment for California Teachers (2006). In order to be recommended for a credential, the candidate must be Achieving Expectations (AE) in all four of the following areas by the end of the advanced student teaching experience.

Directions: Fill in the lines below to indicate performance levels for each skill/trait observed using check, plus, and minus symbols. (Key: + = exceeding expectations for a beginning teacher; √+ = achieving expectations for a beginning teacher; √ = approaching expectations; - = needs special attention.) Then fill in the box for each cluster of skills/traits to indicate the candidate's current level of achievement in each area (EE = Exceeding Expectations; AE = Achieving Expectations; AP = Approaching Expectations; SA = Needs Special Attention). **Attach additional sheets for your comments as needed. *Please note that the designation of Exceeding Expectations (EE) signifies an area of unusual strength for a beginning teacher.**

Performance levels:

EE = Exceeding Expectations (+) **AE** = Achieving Expectations (√+) **AP** = Approaching Expectations (√) **SA** = Needs Special Attention (-)
UN = Unobserved (please write UN in boxes to indicate any areas not assessed during a formative assessment)
