CSI CHANNEL ISLANDS TEACHER CREDENTIAL PROGRAM
Math and Science Teacher Initiative (MSTI) SCHOLARSHIP APPLICATION

DEADLINE: APPLICATIONS MUST BE RECEIVED
IN THE CREDENTIAL OFFICE BY 4 P.M. ON MONDAY AUGUST 15, 2016

CI MSTI Scholarship

The MSTI Scholarships provide incentives for individuals pursuing K-12 math and/or science teaching credentials at CI. These scholarships assist students with educational costs as they complete a credential program. Scholarship recipients will be expected to participate in one or more math and science teacher recruiting activities.

Who is eligible?
Any person currently enrolled in a credential program at CI or who will enter a credential program at CSUCI in Fall 2016 and is working toward a teaching credential in mathematics or one of the sciences at the secondary level. Students are eligible to receive a MSTI Scholarship once in a two-semester period unless otherwise indicated in the award letter. Priority will be given to single subject credential students in math and/or science. Multiple subject and education specialist students are eligible if they are seeking an add-on authorization to teach math or science in addition to their CSUCI Credential Program or established credential. All applicants must meet secondary subject matter competency requirements in either math or science to be eligible.

How much is each scholarship?
Scholarship awards will vary based upon a committee’s review of the scholarship applications. However, we anticipate awards to range from $250 to $3000 dollars.

What do you need to do to apply?
1. Complete an on-line FAFSA application. Students can apply for FREE through the Federal Student Aid Application web site at: http://www.fafsa.ed.gov. It is necessary to have this information on file to receive this scholarship; however financial need is only one of many criteria for this scholarship.

2. Complete the scholarship application form. The application consists of an essay (see the application for details and criteria) and an elaboration on your service and leadership activities.

3. Attach copies of your university transcripts—unofficial transcripts may be used.

4. Attach a copy of your subject matter competency (CSET or Waiver Letter)

5. Completed applications (and all supplementary parts) are due to the CSUCI Credential Office by 4pm MONDAY, AUGUST 15, 2016.

Science:   o Biology                      o Chemistry                    o Geo-science               o Physics                     o FL General Science

Cumulative GPA:____________

Scholarship Candidacy Statement
In a typewritten reflective essay (2-3 pages double spaced maximum), support your candidacy for this
scholarship. This statement will be assessed on how thoroughly and thoughtfully you address each prompt
below as well for writing grammar and mechanics. Please address the following in your scholarship
statement:

(a) Your background, including your personal and professional qualities;
(b) Your commitment and dedication to teaching math and/or science to a diverse student population;
(c) Your financial need; and
(d) How you might participate in activities to attract and recruit more people into math and science
teaching careers.

o Copies of unofficial University Transcripts are attached
o Copies of your passing CSET scores or Subject Matter Waiver Letter
o Scholarship Candidacy Statement is attached
o FAFSA form completed on-line

Service to School and/or Community

Please elaborate on other activities or services to your school and/or community in which you have recently been involved. List and describe each activity or service project, indicate the length of time you have been involved, and – where applicable – indicate any leadership positions you may have held. List first those activities or service experiences that took place over long periods of time. Please attach an additional page if more space is needed.
